REQUIRED HOURS (28) _____

CORE + REQUIRED HOURS (50-51) _____

3. ELECTIVES (100-200 Level). Grade of D- or higher required. The number of elective credits you need to take is based on the total number of Core and Required Hours you complete. A maximum 62 lower level credits can apply to the 120 total credits required. Therefore, to determine how many lower level elective credits you need (if you plan to graduate with exactly 120 credits), subtract the credits you have accumulated from Core and Required Hours from 62. Remember that if you take more than the required 58 upper level credits you would need fewer lower level elective credits.
