PROGRAM HIGHLIGHTS
Tracks in Internal Auditing, Public Accounting and Taxation
12 or 16 months
Day and evening classes
Dedicated career programming from our Office of Career Services

Key topics include:
Internal auditing application and practice
Forensic auditing and its role in fraud prevention, deterrence, detection and control
Business ethics for accountants and auditors
Current trends in corporate governance
The Master of Science in Accounting is the flagship graduate accounting program offered by the Robert H. Smith School of Business at the University of Maryland. This innovative program graduates highly trained accounting professionals who are prepared for the expanded role accounting now plays in consulting, information management and strategic planning.

Developed by Smith’s world-class faculty, the Master of Science in Accounting will help you confidently take on the challenges of today’s era of heightened accountability as you advance your organization – and your career. You’ll be able to carry out the rigorous internal auditing required to meet today’s strict corporate governance and other accounting and auditing standards.
